

## 6<sup>th</sup> International Symposium for Farming Systems Design

### Chuck Nicholson

**Chuck Nicholson** is an agricultural economist and food systems modeler affiliated with the Dyson School of Applied Economics and Management and International Programs of the College of Agriculture and Life Sciences at Cornell University. A former editor of *Agricultural Systems*, he has developed numerous food systems models in both low- and high-income contexts. He recently led an interdisciplinary team to review how food security outcomes are represented in agricultural systems models and to offer recommendations. He is based in Arusha, Tanzania.
